

**For the next few days you are responsible for the following:**

**Don't touch your brows with your hands (only Q-tips, napkins and cotton pads)!**

Day 1: 30 minutes after treatment the eyebrows must be washed / cleaned with baby wipes without alcohol (without perfume). Then apply a thin layer of **skin candy** with Q-tip.

This procedure should be repeated every two hours at least 5 times a day to prevent crust, the last time just before going to bed. Use BROWS PATCHES only the first night after treatment and remove them in the morning.

Days 2 and 3: Use **skin candy** twice a day (morning and evening). Always remember to wash carefully with baby wipes first.

Day 4: Don't use **skin candy** anymore.

After treatment: Use only recommended cream / skin candy. Do not use other creams that are not recommended / given to you. This is to avoid reactions such as infection and allergies.

The 2 first weeks after the treatment, this must be avoided: Public pools, sun exposure, solarium, sauna, skin / beauty treatments, intense workouts that cause sweating and contact with dust (housework and similar).

Aleksandra Ilic is not responsible for any mistakes made by the customer in the post-treatment process.
